NetPoint® 4.2
Collaborative project planning & scheduling
Importing

[Image of a software interface showing an import from Excel dialog box with options selected and a list of fields like Object Type, ID, Description, Calendar, Start Date, Duration, Predecessor, Successor, etc.]
Importing

Invalid or missing data were found in the following cells. NetPoint has corrected these errors automatically as noted.

To make any changes, click "Cancel Import" and go back to Excel. To continue with importing, click "Finalize Import".

1. (E2) Invalid or missing data. Activity imported, but may be set to early date.
2. (A3) Object type not found. Object imported as activity.
3. (E3) Invalid or missing data. Activity imported, but may be set to early date.
4. (D4) Calendar not found. Object's calendar set as default.
5. (D5) Calendar not found. Object's calendar set as default.
6. (F6) Unknown duration. Duration imported as 1.
7. (F3) Unknown duration. Duration imported as 1.
8. (E9) Invalid or missing data. Activity imported, but may be set to early date.
10. (B11) Empty ID will be imported, but the activity cannot be linked.
11. (C11) Description not found. Object imported without description.
12. (D11) Calendar not found. Object's calendar set as default.
13. (F11) Unknown duration. Duration imported as 1.
14. (E11) Invalid or missing data. Activity imported, but may be set to early date.
15. (G5) Predecessor object (3) not found. Relationship not imported.
16. (G6) Predecessor object (4) not found. Relationship not imported.
17. (G7) Relationship (SSW) not recognized. Relationship not imported.
18. (G8) Predecessor object (TRE) not found. Relationship not imported.
